On Editorial and Op-ed pages of the Times of India, The Indian Express, The Hindustan Times, The Pioneer, The Telegraph, and in The Hindu

Sriyut BrahmBodhi has authored numerous books including '*Sampurn Kranti Ki Bhumika*' which outlines the reform-plan for eleven domains of public life including education, administrative reforms, political and electoral reforms, and local self-government. He has produced a remarkable commentary on the Holy Gita by the name '*Moksh-Vidya Dayini Param Paawan Bhagavad-Gita*' which lays bare the truths of the Bhagavad-Gita in an extremely user-friendly and rational-critical manner. He is the founder of *Bhartiya Chetna Kendra Trust* which is currently busy setting up a *chain of non-residential Gurukuls*, which are digital gurukuls in villages and towns with the motto 'Sarv Shiksha, Sampurn Shiksha, Nihshulk Shiksha', that is, '*Total Education, Free Education, Education for All*', and which admits children without distinction of merit, caste, creed and community. Sriyut BrahmBodhi has authored several books for the Gurukul children bearing in mind the special needs of the rural children. Bharatiya Chetna Kendra Trust is also in the process of setting up a *fully residential Tejaswi Gurukul* for especially talented children which will groom children to become Nobel Laureates, writers, scientists, creative artists and future leaders of the country. This gurukul will be admitting only bright or *tejasvi* children, especially from rural and semi-rural background. Tribal children will also be admitted in good numbers.

In the past he has organized residential camps for total development of slum-children at various places where the participating children showed remarkable all-round progress in a very short period of time. A couple of news-clips out of several dozens are enclosed for perusal. In his younger days, in the early 1990's, he did remarkable work in resolving the Naxal-violence problem as Superintendent of Police of the highly Naxal-infested Palamau district in the state of Jharkhand (then Bihar), through his non-violent efforts at resolving big land-disputes through purely informal peoples' courts (लोक-न्यायपीठ), informal People's Parliament (लोक-संसद), and other means. Even today, he continues to fight PILs (Public Interest Litigation) for important public causes, often arguing personally in the courts in favor of the poor and the underprivileged.
